

CUSTOM STICKER SPECIFICATIONS

Our order specifications for custom stickers for all locations.

Cookie Fix is happy to adhere your custom label to a cookie cello, kraft box, or cookie tin. If a custom sticker is desired, it will get the most prominent spot on the product. The Cookie Fix logo sticker will be placed on the back of the cello, side of the box, or on the underside of the tin top, unless otherwise specified.

We recommend [Planet Label.com](https://www.planetlabel.com) for printing custom labels. Custom label artwork and ordering is the responsibility of the customer.

Please plan to place your order with Planet Label or your chosen vendor at least 3 weeks before your scheduled Cookie Fix order to be ensured of your labels arriving in time.

Cookie Fix logo labels use "White BOPP Permanent" paper/ adhesive.

Thickness: 2.6 mils minimum (to ensure quality, beauty, and ease of labeling)

This is a white polypropylene film with an aggressive permanent adhesive that adheres well to a variety of surfaces. This label material is durable and waterproof.
